

Presentation

Flokimooni is named from Elon Musk's Shiba Inu, creating a full attractive defi ecosystem with the most trendy features in crypto space : Mooni World.

It's a new cryptocurrency born by fans & members of the Shiba Inu community. More than this, it's a MOVEMENT.

FLOKIMOONI has three flagship utility projects :

- NFT gaming metaverse
- NFT and merchandise marketplace
- Dex & Launchpad platform

Due to an inactive and uncommitted community in many projects, the products and services provided are usually not so used by the public.

It's why we are always in action to take the members of our community seriously, the Flokimoonies

Solutions & Goals

Flokimooni combines both advantages of a meme and utility token, creating a full attractive defi ecosystem with its ultra-engaged community, letting us having the most current trendy features.

To achieve our goal we have multiple solution :

1 - Dex & Launchpad

With the help of our ultra engaged community and a very strict selectives criteria, we would like to create an appropriate Exchange and Launchpad plateform which will promote new projects to allow members having the chance to being an early investor in the best upcoming project.

Solutions & Goals

2 - Rare NFT's collection Drop and NFT Marketplace

An unique collection of NFT's will be released in Q1 2022.
10 000 Random NFT's will be minted and used later into the play to earn game.

These will be the genesis drop for our early members.

The Genesis collection Airdrop

To rewards our early holders, there will be an Airdrop presented as rewards to initial receivers and the first buyers.

Solutions & Goals

Each NFT in this collection has a specific clarity value. The utility of this value is not disclosed to the public yet. In addition to this value, each NFT has a chance to receive one of the following hidden attributes:

- X
- Y
- Z

These values and utilities of these hidden attributes are not disclosed to the public yet.

3 - Play to earn game

As part of its effort to building out utility of its token, Flokimooni has revealed its flagship project, Flokimooni World : a metaverse NFT game running on the Flokimooni token

Solutions & Goals

Non Fungible Tokens, or NFTs, have grown from a lesser known into the crypto world to become one of the most significant parts of this industry.

One way of NFTs is now being used is to give power back to gamers. Flokimooni's world seeks to provide gamers a fun and immersive experience which they can fully own and profit.

Flokimooni World is a play-to-earn metaverse NFT game. In addition to being rewarded for battling, everything that you gain in the metaverse is yours, to own or to sell as you wish.

The team working on Flokimooni World have been working on NFT games since 2018 and onboarding high-profile advisors with experience developing successful mainstream games.

More information will be updated soon.
